EBSCO A-to-Z[®] Service

EBSCO's A-to-Z service provides library patrons with a single, comprehensive online list of titles to which they have access. With A-to-Z, users can quickly locate and link to journals by keyword or browse an alphabetical list by title or subject. Built-in administrative tools allow customization of the list including extensive branding options that allow the list to match the colors and style of the library's other Web-based services. The master A-to-Z title database provides link and coverage information to more than 100,000 unique titles from nearly 1,000 database and e-journal packages from approximately 200 different providers. All major database vendors and publishers are represented. A library's print titles can also be included.

For More Information

WebFeat

Web Feat Express[™] with EBSCO A-to-Z[®].

Some of the benefits of purchasing WebFeat Express and EBSCO A-to-Z are:

- economical - good for budget-conscious libraries
- no-hassle setup - fast and easy
- hosted by WebFeat - no expensive hardware to install or maintain
- integration with EBSCO's A-to-Z knowledgebase - simplifies administration
- usage reports - SMART is the most sophisticated database usage tracking and reporting system ever developed
- time-tested technology - WebFeat is the original federated search engine and is used by more libraries than all other federated search engines combined.
